SCHOOL NURSE'S REPORT

Year Sept. 1936 to June 1937

It is a pleasure to prepare the following report of accomplishments in the schools of Effingham for the year '36-'37.

- 60 Pupils inspected
- 3 Pupils found with defects of vision uncollected
- 3 Pupils found with defects of vision uncorrected
- 8 Pupils received new glasses during the year
- 13 Pupils found with defective teeth
- 5 Pupils found to have large tonsils
- 2 Pupils have defective speech

The dental clinic report is as follows:

- 46 Children examined
- 14 Requiring extraction of temporary teeth
 - 1 Requiring extraction of permanent teeth
- 14 Pupils had cavities in temporary teeth
 - 3 Pupils had cavities in permanent teeth
- 28 Pupils required prophylactic treatment
- 45 Pupils were treated
- 45 Pupils received certificates
- 28 Total cleaning
- 35 Temporary teeth extracted
 - 1 Permanent tooth extracted
 - 2 Cement fillings
 - 4 Amalgam fillings
- 90 Total operations

A study of this report shows the value of the yearly clinic. Attention given to removal of filling of temporary teeth at the proper time shows its value in the excellent condition of the permanent teeth. The few cavities in permanent teeth show the result of the yearly prophylaxis and examination. Six pupils having new glasses were all transported to Dr. J. A. Hunter at Dover by the nurse. Parents paid cost of

transportation. One pupil was corrected in Portland and one in Laconia. Parents transported children.

Grateful thanks are due the agencies making this work possible.

One piece of orthodonture was financed by the Red Cross. Several treatments being necessary, it could not be done at the clinic. Dr. Coston of Kezar Falls gave the Red Cross very reduced prices for this piece of work.

The Center School won the banner for the best attention to routine personal hygiene habits. The rating was established by a score sheet kept by the nurse. 35 visits have been made to schools.

All pupils were routinely weighed and measured and reports sent to parents since failure to gain a normal amount is the first indication of illness.

Forty pupils were visited in their homes.

A complete freedom from communicable disease is gratifying and most remarkable.

Effingham pupils are to be congratulated on having so much care provided by a thoughtful school board.

One suggestion I would like to make regards proper ventilation in winter. Several inexpensive ventilators would be helpful at the Falls School. All windows should be fixed to permit easy opening at all times of year.

I wish to extend my thanks to all whose cooperation and generosity have made possible such satisfying results.

Respectfully yours,

EVA. M. NELSON
School Nurse

SUPERINTENDENT'S REPORT

I herewith submit my eleventh annual report as superintendent of schools, it being the nineteenth in the series of such reports.

The Educational Policies Commission representing the National Education Association has reached several conclusions relating to the structure and administration of public education. Some of these are as follows:

1. "American public education should be made effectively free." Effingham furnishes free schools, with books and supplies, and transportation for long distances. Attention is given to health, recreation and good citizenship. Special equipment for music and apparatus for the playground are especially appreciated.

2. "American public education is concerned with every individual from early childhood through adult life." Effingham provides for boys and girls from Grade I through Grade VIII and pays tuition for those who go on to High School. It would be a fine thing if there could be some evening classes for older youth and adults.

3. "Local units of school administration should provide professional leadership." Effingham provides good teachers and district supervision under the care of a school board chosen by the citizens.

4. "Education should be independent from other government functions." Effingham, as a town, and New Hampshire, as a state, keep school management out of politics, to a commendable degree.

5. "Schools must cooperate with other agencies in serving human needs." This suggests that the home, church and school should cooperate. The schools have a heavy burden for the development and welfare of the boys and girls, but homes and churches should not avoid the primary responsibility.

6. "State responsibility in education involves professional leadership." It is desirable that the Commissioner of Education be appointed by the State Board of Education. It is so done in New Hampshire.

7. "State responsibility in education involves the equalization of the burden of school support." New Hampshire, by a very wise provision, furnishes state aid for smaller towns, and Effingham profits this year by more than \$1000.00.

Schools are going well in Effingham this year. Each school has an experienced teacher and the attendance is generally good. The health work is under the care of Eva M. Nelson, whose report is appended. Noon lunches have been served during the cold months.

The property is well kept. A very fine improvement has been made at Center Effingham where septic toilets have been installed. This gives a much more cleanly and sanitary condition and there is no yearly expense as in the case of the chemicals. Care should be taken of the unused buildings at the Mountain and South Effingham. Wells should be dug at both schools now open, and a ventilating heater installed at the Falls School. The lawns should be further beautified by setting out shrubbery.

Visual education is still carried on. With electricity in each building it is possible to give valuable information to the boys and girls, on topics of history, science, geography and biography. The pictures form part of the Memorial Day program which the schools prepare each year.

Parents are reminded that children must be vaccinated before entering school in the fall. This should be done early in the summer. It is to be regretted that any pupils have to be shut out of school and wait for vaccination after school has begun in September.

STATISTICS

For the year ending June 30, 1937, we had an average attendance of 52, an average membership of 54 and a percent of 95.8.
